ALUMINIUM WINDOWS

APX70 TILT & TURN

THE HIDDEN SASH WINDOW THAT READS AS PURE GLASS

- Hidden Sash, 66mm Visible Section
- Uw From 0.84 W/m²K
- PAS24 Security Available

The APX70 conceals its sash behind the frame, leaving a visible aluminium section of just 66mm, so from outside it reads as a fixed pane of glass. Hinges, drainage and even the handle can be fully concealed, keeping the view completely clean. The sash tilts inward for secure ventilation and turns fully into the room for easy cleaning, backed by serious thermal and acoustic performance.

- Concealed Hinges, Drainage & Handle Option
- Acoustic Insulation Up to 46dB
- 10 Year Guarantee

APX70 TILT & TURN SYSTEM
