ALUMINIUM BIFOLD DOORS

SCHÜCO AS FD 75

THE FOLDING DOOR THAT OPENS AN ENTIRE ELEVATION

- Up to 7 Leaves Across 10.5m
- Four Drainage Levels for Weathertightness
- PAS24 Security Available

Up to seven leaves fold back and stack clear across an opening of 10.5 metres, turning a whole wall into an open threshold between the room and the garden. A new roller carriage runs on solid stainless steel tracks, so leaves of up to 150 kg glide quietly rather than rumble. Four drainage levels keep the weather out, and thermally broken profiles hold U-values from 1.1 W/m²K with PAS24 security available.

- Leaves Up to 1500 x 3000mm at 150kg
- Glazing Up to 50mm
- 10 Year Guarantee

SCHÜCO AS FD 75 SYSTEM

SIZE LIMITS
