UPVC WINDOWS

SLIDING SASH

THE CLASSIC VERTICAL SLIDER, REBUILT FOR MODERN LIVING

- Concealed Spring-Balance Mechanism
- Tilt-In Sashes for Easy Cleaning
- PAS24 Security Available

Both sashes glide on a concealed spring-balance mechanism, with no cords, weights or pulleys, and hold at any height. They tilt inward for easy cleaning from inside the room, while run-through sash horns and a deep bottom rail keep the period detailing honest. Multi-chambered frames and 24mm argon-filled double glazing achieve U-values from 1.2 W/m²K, with PAS24 security available.

- 24mm Argon-Filled Double Glazing
- Run-Through Sash Horns as Standard
- 10 Year Guarantee
